## Surgi-Bra®

Therapeutic breast support designed to provide medium to firm compression following breast procedures including mastectomy, lumpectomy, biopsy, augmentation, and mastopexies.

Now available with removable drain bulb holders. Cotton/Spandex. White.

- Holds dressings in place without tape or elastic bandage wrap
- Familiar bra-like styling promotes patient acceptance; looks natural beneath clothing
- Fabric allows skin to breathe
- Velcro® brand hook and loop fasteners for adjustable compression
- Allows easy inspection of the surgical site
- Supports without sacrificing patient comfort
- Removable drain bulb holders under each cup
- Latex-Free
